HELPGO SCHOLARSHIPS

While scholarships have always been available for First Student events, this year, we are putting an extra emphasis on what we're calling the HelpGo Scholarship. This is both an offering for those to give to help students go to events and an opportunity for students to attend who might not be able to afford it otherwise.

Finances should never be an obstacle that prevents students from being involved, so for those who may need some additional help, **here's how it works:**

1) Apply – We will provide a link for a private application for the HelpGo Scholarship for each event that requires payment. This application takes moments to complete and is kept completely confidential.

2) Request – Due to the number of scholarship requests we receive, we are unable to completely cover the cost of someone's registration. Parents/Guardians may request from 25%-50% assistance in the cost of the event.

3) Communicate – Please never shy away from asking for financial assistance if you need it. Families and finances go through different seasons and we are more than glad to offer help however we can!

Please make sure to take advantage of our early-bird prices that often help families and students save on the registration cost!
